30 MARCH - 3 APRIL 2016. ROME, ITALY

UIPM 2016 WORLD CUP 3

INTRODUCTION

WELCOME TO ROME

The time has come for Rome, an official candidate city for the 2024 Olympic Games, to “breathe Olympics” for a week. So it is fitting that one of the original sports of the Olympic movement brings us together for this celebration of athleticism.

Modern Pentathlon came into being at the Stockholm Olympic Games in 1912 and was the result of Baron Pierre de Coubertin, founder of the Modern Olympics. Now it is an established global sport, as we see every year during the UIPM World Cup season.

After a stage in Africa (Cairo, EGY) and a stage in South America (Rio de Janeiro, BRA), the World Cup comes to Europe for stages in Rome (ITA) and Kecskemet (HUN) before the Final is staged in a fourth continent, North America (Sarasota, USA).

In this 3rd stage of the World Cup, organized by the Italian Federation of Modern Pentathlon, about 200 pentathletes will participate on behalf of 33 nations. The event begins with two days of qualifying on March 30/31 before for the finals determine who wins the medals on April 1/2/3.

From an Italian perspective Riccardo De Luca, the 2015 UIPM World Cup champion, will

be going for gold in front of a home crowd in the Men’s Individual event while Claudia Cesarini will aim to build on her fantastic victory in World Cup #2 in Rio de Janeiro, at the venues that will be used for the 2016 Olympic Games.

Cesarini is sure to encounter tough competition from the likes of world No.1 Laura Asadauskaite (LTU) and No.2 Lena Schoeneborn (GER), while De Luca’s many rivals will include Egypt’s El Geziry brothers, who have one gold and one silver medal between them in this World Cup season already, and the in-form Jun Woongtae from Korea.

In truth, the competition is so open that as many as half of the competing nations could supply the athletes who top the podium this week. Especially as the race to qualify for the Olympic Games supplies extra motivation for some of the less established stars to gain qualifying points, while some of the top athletes who know they are going to Rio may be more concerned with specific results than the overall outcome.

Whatever happens, spectators are in for a treat with world-class athletes competing in world-class facilities.

FORO ITALICO

Foro Italico is a sports complex in Rome built between 1928 and 1938 under the design of Enrico Del Debbio and, later, Luigi Moretti. Inspired by the Roman forums of the imperial age, its design is lauded as a preeminent example of Italian architecture.

UIPM TV

The Combined Event of each finals session will be available to view on live stream at uipmtv.org with highlights of the whole day's action to follow.

For up-to-date results of all competitions visit pentathlon.org.

UIPM PRESIDENT'S MESSAGE

Dear Member Federations,
Dear athletes, coaches and officials,
Dear friends,

In this special and historic year we are delighted to be back in the majestic surrounds of Rome for the 3rd round of the 2016 UIPM World Cup.

This being an Olympic year, the stakes are higher than ever for the elite athletes who will give us so much to applaud and admire in the coming days. Qualification for Rio 2016 remains the main priority for many countries and many individual pentathletes.

In the 2016 World Cup we have already enjoyed two very successful events. In Cairo, we saw a precious victory for a home athlete, Amro El Geziry of Egypt, an act that the 2015 World Cup champion Riccardo de Luca will be trying to emulate here in Rome. In Cairo we also saw a victory for the 2008 Olympic champion Lena Schoeneborn (GER).

In Rio de Janeiro, where the Olympic venues at Deodoro Park were fully tested for the first time, we saw Italy's Claudia Cesarini show great determination to win Women's Individual gold during one of the most dramatic rainstorms I have seen in all my years involved with Modern Pentathlon. Jun Woongtae (KOR) then won a thrilling Men's Individual final.

Whether you are involved on the field of play, behind the scenes or as a spectator here in the ancient birthplace of the legendary gladiators, I hope you will be impressed by the drama of our sport and the commitment of our competitors.

We have greatly enjoyed the UIPM competitions that have been held in Rome in the past. Our hosts, the Local Organising Committee, the Italian Modern Pentathlon Federation, the Italian Olympic Committee (CONI), the Italian Government, sponsors, media and volunteers are accustomed to showcasing Modern Pentathlon on a global stage that befits the prestige of our corporate and broadcast partners.

As always, I would ask our athletes and coaches not to forget that they have a responsibility to uphold the values of Fair Play, friendship and peace that underpin our sport.

I wish you all a wonderful week of Modern Pentathlon.

A handwritten signature in black ink that reads "Klaus Schormann". The signature is written in a cursive style.

Dr Klaus Schormann
President, Union Internationale
de Pentathlon Moderne

FIPM PRESIDENT'S MESSAGE

It is with great pleasure that the Federazione Italiana Pentathlon Moderno welcomes all members of the big family of our sport. From March 30 to April 3 in Rome, the "Eternal City", athletes, coaches and managers from around the world will be the protagonists of the 3rd stage of the 2016 UIPM World Cup. The Federazione Italiana Pentathlon Moderno, which I have the duty and the honor of chairing, has put together the best resources to enable athletes to compete in venues technically excellent and scenically unparalleled and allow fans of our sport attending the competitions to enjoy a unique spectacle.

We are sure that the international delegations will have an unforgettable week, while the citizens of Rome will have a great opportunity to see up close our sport and the incredible emotions it creates. On behalf of myself and the Italian Federal Councillors I wish good luck to the athletes who will be giving their best to honor this great event.

A handwritten signature in black ink, reading "V. Magini". The signature is fluid and cursive, written on a white background.

Professor Valter Magini
President of the Federazione Italiana
Pentathlon Moderno

DID YOU KNOW...?

AIM OF THE GAME

Athletes compete in fencing, swimming and horse riding, followed by a combined running and shooting event, with the first to cross the line winning the gold medal. And all of this happens on one day!

CHARACTERISTICS

With its mixture of physical and mental demands that test courage, stamina, coordination, concentration, skill and flexibility – plus a generous dose of unpredictability – this event has a strong claim to producing the most complete athlete.

THE ORIGIN

Just as the ancient pentathlon was based on the skills needed to be a soldier, the modern pentathlon was devised to test the abilities required by a cavalry soldier.

Pentathlon was first held in the ancient Olympic Games in 708 BC and consisted of running, long jump, spear throwing, discus and wrestling.

Baron Pierre de Coubertin, the founder of the modern Olympic Games, created modern pentathlon, comprising the five events that continue until today .

KEY TERMS

HANDICAP START

In the final event (running and shooting), the overall leader starts first and his/her rivals start afterwards, at intervals based on their point tallies.

ÉPÉE

The type of weapon used in the fencing, competitors are allowed to hit any part of the opponent's body.

BONUS ROUND

New part of the fencing competition that gives athletes the chance to win bonus points, after the round-robin ranking round.

The important thing in life
is not to triumph but to
compete.

BARON PIERRE DE COUBERTIN
